

Further reading

Here are some useful links for further reading:

1. **Dynamo** - Highly Available Key-value Store
2. **Kafka** - A Distributed Messaging System for Log Processing
3. **Consistent Hashing** - Original paper
4. **Paxos** - Protocol for distributed consensus
5. **Concurrency Controls** - Optimistic methods for concurrency controls.
6. **Gossip protocol** - For failure detection and more.
7. **Chubby** - Lock service for loosely-coupled distributed systems
8. **ZooKeeper** - Wait-free coordination for Internet-scale systems
9. **MapReduce** - Simplified Data Processing on Large Clusters
10. **Hadoop** - A Distributed File System

Well you're at the end of this section, did you complete it?

YES!
